SUMMARY

Motivated Software Engineering student with expertise in Python and MERN-Stack technologies. Passionate about staying abreast of the latest technologies to contribute effectively to innovative projects.

EDUCATION

Bachelor of Software Engineering, Sir Syed University

Expected 2024

CGPA: 3.6/4

Relevant Coursework: OOP,DB,AI, and SDA.

Intermediate - Pre Engineering, Adamjee Govt College

2017 - 2019

TECHNICAL SKILLS

Frontend JavaScript, ReactJs, Tailwind Backend Node.js, Express.js, Python

Database mySQL, MongoDB

FREELANCING

Python Programming

july 2021 - 2023

Fiverr [Link]

• Collaborated with diverse clients to understand their requirements and successfully delivered high-quality 2D text-based projects.

PROJECTS

[Link] Quiz Game - Front End and Back End Development

Tech Stack: Node.js, Express.js, Tailwind CSS, MongoDB, Vite

- Developed a feature-rich web application offering interactive quizzes and real-time score tracking for programming enthusiasts, utilizing React for the frontend and Node.js with Express for the backend.
- Ensured an optimal user experience across devices by implementing a responsive design approach, adapting the user interface seamlessly from large desktop screens to mobile devices.

[Link] AI CHATBOT Front End and AI based

Tech Stack: Pytorch, NLTK, Neural Network, Flask, Js

- Engineered a customer-centric chatbot that facilitates and guides users through the restaurant website, offering personalized assistance and information.
- Implemented multilingual support, enabling the chatbot to comprehend and respond in both English and Roman (Urdu), enhancing the user experience for a diverse customer base.
- Successfully integrated Vosk API for voice recognition, enabling users to interact with the chatbothrough voice commands, expanding accessibility and providing an innovative alternative to traditional text-based input.

LANGUAGES

- Fluent in English
- Conversational Proficiency in Urdu
